

HUNTER SHATTERS ARM NEAR NORDEGG

Nordeg, Alberta, Oct. 30.—A distressing accident took place in the bush near Pinto Lake, about 60 miles from Nordeg, last week, when Mr. Pearce was accidentally shot. Mr. Pearce, along with wife and child, had gone out on a hunting trip. It appears he had had a loaded gun on a pack horse, and in going through the bush the gun discharged, the bullet entering Pearce's arm, completely shattering it. He managed to reach the fire ranger's cabin, a distance of nearly two miles. A messenger was soon under way to Nordeg to get medical help. Dr. Shinkhor set out for the scene of the accident, and it is hoped he will be able to save the arm.

By Strawberry Flats and the Silver Daisy

1—Falls about 5 miles from Hope
3—On the trail

2—The Summit
4—Delancey Camp

The little village of Hope, situated on the Fraser River about one hundred miles from the coast, is the starting point for all mountaineers wishing to reach the interior of British Columbia by the trail route. It is a scattered village of about two hundred inhabitants but possessing both an abundance of natural beauty and a truly romantic past. The village is situated on one side by the noble Fraser river, while from the other side one looks up three wide draws in the mountain ranges. The one to the left is the beautiful Coquihalla valley through which the turbulent Coquihalla river cascades from a pass unmatched for rugged grandeur. Through this pass too, under innumerable snow sheds and tunnels the Kettle Valley Railway goes to Princeton and the interior. In the centre is an opening for the Nicola river, to the right is the Silver Creek draw and beyond it the snow-capped peaks of the Cascade range.

The mountain trail over the Hope Pass is the old one known as the Dewdney which was surveyed and partly built for twenty-five miles out of Hope, by English Sappers in 1861. It winds up the Coquihalla River for a short distance, then branches off by the Nicola, a tributary of the former river. The way lies through Sylvan glades, past rushing waterfalls and over rustic bridges, the old dry "cribbings" of which is as firm as the day when it was laid.

The first feeding ground for horses at 12 Mile Lake—otherwise known as Devine Lake at an altitude of 2300 feet. This lake is the head waters of the Nicola river. Here there is a beautiful hay meadow owned by a trapper and prospector who is patiently awaiting the day when the transcontinental road will give him a means of transporting his wealth, in the shape of hay, to outside points.

At 22 Mile there is another beautiful camping spot. Here there is a large cabin situated in the forest's heart on the very banks of the Skagit river. The owner of it carries on prospecting and mining operations in the vicinity. It is appropriately called his cabin "Delancey C. and his mine 'The Silver Daisy'."

From here on for many miles the scenery becomes more so. Here, if that were possible, but at the same time more wild and rugged. The Pass, a narrow hallway bounded by steep cliffs of great height, is a sight never-ending. At one end of the Pass, a narrow hallway, the trail in bare ice inches wide winds around the

SOME FACTS ABOUT ALBERTA

The altitude of Lethbridge, near the U. S. boundary, is 2900 feet, at Calgary, 1500 miles north it is 3400 feet; at Edmonton, 2000 miles north of Calgary, it is 2100 feet, and at Peace River, near the northern boundary of the province, it is 1092 feet. Population in Alberta has increased from 75,000 in 1901 to 538,000 in 1921. Since 1911 the increase has been 55 percent. The 1916 census gave the rural population at 397,746 and the urban population at 183,749.

The 1921 census gave the rural population as 395,550 and the urban population as 222,994. There are in Alberta six cities, 54 towns, 119 villages, 107 municipal districts and 201 improvement districts. Cities of Alberta—The six cities of Alberta are as follows: Edmonton, the capital, Calgary, Lethbridge, Medicine Hat, Red Deer and Wetaskiwin.

In rural districts of Alberta taxation is on land alone, and not on improvements. Rates are fixed by the government in unorganized districts, and by councils in municipal districts. In cities there is a business and property tax.

In 1910 the number of cattle in Alberta numbered 672,700, and in 1921 the figure was 1,351,522. The number of horses in 1910 was 254,187, and in 1921 was 516,510. The ranch of the Prince of Wales is located in Alberta, southwest of Calgary, in the foothills. Cheap Irrigated Lands—Acreage which will be irrigated by the new Lethbridge Northern project, near Lethbridge, is now being thrown open for settlement. The district covered by the project is already fairly well settled. The holdings are being divided, and the excess land offered for sale at prices ranging from \$10 to \$40 an acre.

Central and Northern Alberta, by reason of their physical features, are particularly adapted to the practice of mixed farming.

OUR OWN LITTLE CLICK

We were in a large telegraph office the other day while all the sending for recording instruments were clicking and all the typewriters were rat-a-tat-tatting, and we couldn't help wondering how these men and boys were able to dispatch messages or receive them in such an uproar.

"It's wonderful!" we exclaimed to the manager, who was showing us around.

"What?" he asked.

"Why, how they manage even to think clearly with all that noise going on."

"It's merely a matter of concentration," he explained. "The boy or man who is unable to concentrate can't hold a job with us and I doubt if he'll amount to much in any other calling. Every one of those telegraphers is concerned only in his own little click. He is just as oblivious of the other clicking as though it were silent, for he knows he'd be lost if he paid any attention to it."

"The more we thought about what the manager said the more we saw how important it was to us, in our workshop, in our studies, in the doing of anything that is worth while, to pay attention to our own little 'click.'"

CONDEMNATION OF U.S. NAVY OFFICERS

Three Men Caused Death of 23 and Loss of \$100,000 Naval Material.

Washington, Nov. 1.—Bad judgment and faulty navigation on the part of three officers caused the loss of 23 lives and of naval material to the value of \$100,000 in the destroyer accident on Honda Point, Calif., September 8, the board of inquiry declared in its final report to Secretary Denby.

On the recommendations of the board, Captain Edward H. Watson, the squadron commander, Lieut. Commander Donald Huggins, commanding the Dolphin, flagship and leader of the nine destroyers which grounded, and Lieut. L. F. Blodgett, navigator of the Dolphin, will be charged before a general court martial with "culpable inefficiency in the performance of duty" and negligence. Eight other officers including the commanders of as many destroyers which figured in the catastrophe, will face charges of negligence in the performance of duty.

The report was declared by veteran naval officers here to be almost unprecedented in its sweeping condemnation of those alleged to be responsible for the disaster.

TURKEY A REPUBLIC

Constantinople, Oct. 30.—The National Assembly at Ankara has voted the establishment of the Turkish Republic. Mustafa Kemal Pasha has been unanimously elected president. The Assembly accepted the constitutional amendments proposed without opposition, and loudly cheered the republic.

The industrial party, at a meeting previously held, accepted Mustafa Kemal Pasha's proposal to proclaim a Turkish republic and for the election of a president who would be empowered to nominate a premier. The party also accepted the following proposals by Kemal: The language to be Turkish; the religion to be Islam; the president of the republic to be elected by the deputies for a term of four years, eligible for re-election; the grand national assembly to be the chief of state with the right to preside over both the council of ministers and the grand national assembly; the president to be the president of the council of commissioners, who will choose his own colleagues, to be submitted to the assembly for approval.

LORD'S A BIG CITY BUSINESS

The Calgary Albertan, Saturday last, speaking of the W. E. Lord Company's store, says:

"A store well worth coming many miles to shop in is W. E. Lord Company's, Ltd., Red Deer. It is a general store—a general store which does more than most word in piles, for there are stores within a store."

A large women's, children's and babies' department occupies one entire end—it is in itself a complete store. Goods and wraps are displayed on figures and the wardrobes contain an excellent display of garments for all occasions, including special preparations for afternoon, evening and semi-evening wear. There is also a large display of winter coats and wraps. The baby and children's section is particularly attractive. It contains dress goods and silk materials displayed on the counters are the latest word in style; also the fine lace accessories to the heart of maternity, and the millinery department will also draw her attention.

The men's and boys' clothing and furnishings department is very large and here again the line is equal to that found in the larger stores. There is also a boot and shoe section, well equipped with stock.

The grocery store is very large, so large in fact that it is surprising to find this, as the other departments, outside of a very large city. The hardware section is another real live part of this establishment.

Mr. Lord's specialty of high grade linens should not be overlooked. These are found only in the metropolitan cities.

CHILDREN COME TO CANADA ON MAGIC CARPET

LITTLE ARMENIAN REFUGEE

ful travellers, transporting them from their homes to the port of embarkation, looking after their comfort and welfare on board ship and, finally, delivering them safe and sound to their destinations in Canada or America. These children, as a rule, are cheerful kiddies who soon work their way into the hearts of their fellow travellers who are generally eager to smooth the paths before the children.

Above are shown some of the little folks who have recently crossed the Atlantic alone. Keith Herz, an 11-year-old boy, travelled from his home in Usculog on the Russian-Austrian border, to Milwaukee. The company's agent at Warsaw accompanied him to Antwerp, whence he sailed on the S.S. Metagan. A very interesting passenger came over on an August run of the S.S. "Mellita," a little 6½-year-old Armenian refugee, who is to become the adopted son of western Canadian farmers, a marvelous change from poverty to plenty. Dick Anderson, the boy being shown the working of the compass by Captain Landy of the S.S. "Mellita," was the youngest member of a party of boys sent from England to the Dr. Barnardo's Home in North Toronto, Ontario, where waits from London are given education, a comfortable living and become worthy Canadian citizens.

Scotch lassie, Rita Jeffrey of Dundee, Scotland, boasts of many trophies won by her nimble 9-year-old hands. She owns 4 silver cups and 21 medals won at dancing, and gave much pleasure to all passengers on a recent voyage of the S.S. "Mellita," by executing 15 different dances on her way out of Canada.

Here and There

In order to handle the grain this fall the Ford William, Ont. force of elevator men will be increased to 700. In 1922, 150 grain trimmers were employed.

For the five months to August, 1923, Canadian newspaper exports amounted to \$25,308,043 against \$27,257,382 for the same period in 1922. Pulp exports in the same period were valued at \$20,008,461 against \$16,076,533.

Grain loading on Canadian Pacific lines during the month of September totalled 26,376 cars or 385,445,500 bushels. The beginning of the loading season which was two weeks late this year on account of the retarded harvest.

This has been the greatest season for automobile tourists Montreal has ever experienced, according to the Secretary of the Automobile Club of Canada. Cars, he stated, had come into the city over the King Edward Highway at the rate of two hundred a day, an annual number from California, Florida, Carolina and Virginia being noticeable.

There was nearly \$100,000,000 in total trade of the Dominion for the first five months of the current fiscal year, according to a report of the Dominion Bureau of Statistics. The total trade of the Dominion, according to the return, for the five months ending with August, was \$785,000,000, as against \$625,000,000 during the same period a year ago. Imports during the period were about \$393,000,000, as against \$303,000,000 a year ago, while exports of Canadian produce rose from \$316,000,000 approximately to \$386,000,000.

There is a heavy demand for bushmen, according to the Government Labor Bureau at Montreal. The big lumber companies have been engaging men for the bush, and the prospects are that the demand will be sufficient to make fall and winter conditions good. Wages paid this year by the lumber companies are higher than last year, the rates being \$40 and \$45 a month, whereas a year ago the schedule was down to \$36 a month.

With the completion of the harbor works now in progress, Montreal will be in a much better position in 1924 to handle a record flow of grain than ever before. Windmill Point elevator will be increased by 1,200,000 bushels storage capacity, making its total capacity \$250,000. Four additional shipping berths are being provided at this elevator and will be in commission early next month, and the elevator's loading capacity will be increased from 30,000 to 90,000 bushels an hour.

Reports to the Canadian Pacific Railway, showing that they arrived at Winnipeg from the British Isles this year for the purpose of working on the harvest, 11,855 men. Special efforts are being made to find occupation for as many as possible to cover the winter period. It is stated that it is now probable that a considerable number of these harvesters from Great Britain and the Irish Free State will remain in the Dominion.

Addressing a recent meeting of the Vancouver Board of Trade, President E. W. Beatty of the Canadian Pacific Railway, announced that the company proposed immediately to add two large modern steamers to its coast fleet in order to take care of increasing trade along the coast lines. He also announced the early start of a new line of coastwise service, which has been made necessary by the steady development of Canada's trans-Pacific trade.

BRING YOUR CAR TROUBLES HERE

HAVING TAKEN OVER THE MECHANICAL DEPARTMENT OF THE FORD GARAGE, First Street South, the undersigned is prepared to do Auto repairing in all its branches.

WE HAVE A THOROUGH KNOWLEDGE OF ALL CARS, and no work is too hard for us to understand.

A PROPOSITION

At the request of many of our customers we have decided to make the following proposition on purchases of

Dinner or Tea Sets

Many of our customers like to have a Dinner Set to give for Christmas Gifts, but are unable to pay the full amount cash. Here is a proposition that will enable anybody to procure a set on easy terms:

One-third Cash at time of purchase; one-third about December 1st, and the balance about Christmas Eve.

The set will be packed immediately and delivered on receipt of last payment. You will not pay any more than the cash price or any interest charges.

We have 50 sets to sell under the above proposition. Come early and get your choice of a Dinner or Tea Set.

Customers out of town will be forwarded photos of the different sets on request. We have eleven patterns to choose from.

BRAZIER'S

A Personal Service

It has been the aim of this Bank, since its inception, to be something more than a mere repository for funds. Its policy has always been to render a service both personal and interested to all its clients. Perhaps this fact accounts for the remarkable and steady growth of the Imperial Bank during the last 48 years.

BRITAIN AND U.S. ACTING TOGETHER CAN SAVE WORLD

"Not by Alliances," Says Lloyd George, "But by Understanding and by Co-operation"

Saratoga, Pa., Nov. 1.—The English-speaking peoples of this earth have saved civilization from doom—doom—doom," Mr. Lloyd George declared in an address here yesterday before a great audience in the state armory.

The people of the United States and Great Britain, in acting together to insure order in the world, he asserted, need enter into no formal agreement to that end.

"Not by alliances, but by understanding," he said, "not by contracts, but by co-operation."

Mr. Lloyd George paid tribute to Charles M. Schwab, who was seated on the platform, for his war services, and the two men shook hands and embraced while the audience cheered.

"I owe him an especial debt of gratitude and here I am speaking for millions of my own people," the war premier said. "He was one of the Americans who from the start placed the whole of his great genius for organization of the service of the allies."

Mr. Lloyd George told how the Kaiser had heard that Mr. Schwab was supplying the deficiencies of the allies and made him an offer that would pay him three-fold in pecuniary profits for throwing up the allied contract, "and he stood by the allies."

Back in New York
New York, Nov. 1.—Lloyd George

returned last night to New York—the last stop of his triumphal tour of Canada and the United States—and will be the guest of John W. Davis, former ambassador to Great Britain, at Locust Valley, L.I., until Saturday morning, when he will sail for England.

Tonight Mr. Lloyd George will address the Lotus Club and Friday night a concluding address at the Metropolitan Opera House will be given.

As the former prime minister's car sped across Manhattan last night headed for the Queensboro bridge to cross over to Long Island, heavy police guards menaced the route. It was denied, however, that this guard had been placed because of threatening letters Lloyd George had received.

The arrival last night concluded a trip of six thousand miles covered by train and automobile. Starting from New York after his arrival on October 6, the party travelled through various parts of Canada and the United States, going as far west as Winnipeg, Chicago and St. Louis, and as far south as Richmond, Va.

In that time Mr. Lloyd George made stops of considerable length at 20 cities, as well as rear platform stops at scores of other points, speaking to hundreds of thousands, if not millions. Everywhere the distinguished visitor was received cordially and frequently with demonstrations of enthusiasm which gave to the journey the aspect of a triumphal tour.

Mr. Lloyd George, in his addresses, thanked the United States and Canada for the part they played in the war, urged a proper adjustment of the German reparation situation, and the United States aid in achieving a "peace of justice in Europe, and appealed for an understanding among

the English-speaking peoples in the interests of maintaining a national peace in the world.

LONDON MOURNS BONAR LAW

London, October 30.—Andrew Bonar Law, for seven months premier of Great Britain, died in his modest London home at three o'clock this morning. The official bulletin issued by the physicians who attended the former premier read as follows:

"Mr. Bonar Law died at three o'clock this morning following an acute attack of angina pectoris. (Signed) Gould, May, Horner."

Five months ago—on May 20—he resigned the premiership on account of a throat ailment which for a long time had troubled him.

Even then he was reluctant to admit that his career was finished, and retained his seat in the house of commons where he since made two or three speeches.

Contracted a Chill
Ten days ago Mr. Bonar Law returned to London from Brighton after a sojourn of several weeks. His physicians issued a statement to the effect that he had contracted a severe chill, but the public did not suspect that the end was so near until they read in this morning's newspapers that he had developed angina pectoris and a condition that gave rise to considerable anxiety; but soon after he had appeared giving the news of his death.

The ex-premier's daughter, his only surviving relative, left in England with him during the last days of his illness. His two sons were killed in the war, a son-in-law from which Mr. Bonar Law never recovered.

Health Precarious
When the Canadian Scotsman—Mr. Bonar Law was born in News Brunswick, Canada, on September 16, 1858—accepted his high office a year ago his friends well knew his health was precarious. Outside that close circle it was known only that he had contracted a throat complaint which prevented him from speaking.

Mr. Bonar Law was aware of his own condition and promised the Unionist party when he accepted its mandate that he would resign if and when he found his strength unequal to his work. He gave place to Stanley Baldwin, his chancellor of the exchequer, almost before his new government was fully organized, retiring to the country to safeguard his failing strength.

No Report of Illness
No official statement as to the nature of Mr. Bonar Law's illness was ever made, but the public drew an inference from the fact that Dr. Thomas Horner, who was attending him when he resigned, and who has since been his physician, is one of the foremost cancer specialists.

During the interval spent in the country since his retirement, Mr. Bonar Law had been able to take outdoor walks and also motor considerable. The signs of these activities, which seemed to indicate that he was holding his own, had not prepared the public for the news of his comparatively rapid decline.

There has not yet been time for funeral arrangements, but there is every reason to believe it was Mr. Bonar Law's wish to be buried as simply as he lived.

Baldwin's Tribute
London, Oct. 30.—Prime Minister Stanley Baldwin, who succeeded Andrew Bonar Law as premier, paid the following tribute to the dead statesman:

"For him, I am thankful he has been spared further suffering; for his friends the loss is irreparable. The country will miss him, but he sacrificed his life in his service."

Lloyd George's Sorrow
Philadelphia, Oct. 30.—Word of the death of Mr. Bonar Law was received with deep regret by David Lloyd George upon his arrival here today. News of the passing away of the British statesman was kept from Mr. Lloyd George by his associates until he had finished breakfast in his private car. He then dispatched a message to the daughter of the late premier, and in a statement to the press said:

"I have heard the sad news with deep regret, tinged with relief that he long and severe suffering has at last come to a peaceful end. I saw him shortly before I left for this country and the news certainly was

not unexpected by me."
"During the last years of the war and the first years of the peace, we worked in closer co-operation and partnership than probably any two ministers of the crown had ever worked before. There was hardly a day we did not meet and not a day we did not communicate with each other and interchange views. No man could wish for a more loyal, sagacious and helpful partner in the theory of co-operation."
"Although we had serious political differences that severed co-operation during the past year, our friendship never broke and we met just a few days before I left for these shores. It fills me with sadness to think I shall never meet him again."

THE COMIN' O' WINTER

(Described by Uncle Abe.)

Hurryin', hurryin', seezy-white an' scurryin'.
The fast storm-clouds o' winter go a-chasin' 'cross the sky;
I hike back to the kitchen door,
An' hollers out—"Hello there, maw,
Bring dis me some an' maw-maw,
I'm froze to death most nigh."

Outside the calves with lusty bawl,
Their backs snow-covered one an' all,
Are raisin' Cain
"Cause it don't rain so late as this in fall;

I beats ut to the feedlot fast
An' to the better some fodder cast,
An' wonder if me feed'll last,
This winter's early call.

An' then up to the stable door,
Which scarcely open'd an' all the four;
Awinty that they wants some more,
I cries—"Hello there, boys."
An' then as to the lot I climb,
They keep it up, one at a time,
An' seem to think their maw's due,
Yer niver heard sich noise.

Yep, winter's started on the farm,
An' altho' I s'pose I s'ets the alarm,
An' thinks if I sleep more, what harm,<
There ain't much else ter do.
But as the clock, the hour, the next, be fed,
An' cared fer, every single head,
Guess mawbe now enough I've said,
Bout winter come.

C. L. H. WALDE
Red Deer.

MUNICIPAL DISTRICT OF HAYS

The eighth meeting of the Council was held in Elmore on the 19th of October at 11 o'clock a.m., with all Councilors present.

Moved by McRae, that the minutes of the previous meeting be adopted as read. Carried.

Re. appeals against Wild Land taxes. It was moved by Ross that exemption be granted on the S.W. 1/4 of Sec. 24, T. 15, R. 18-35-24, and the N.E. 1/4 of Sec. 24, T. 15-36-24. Carried.

Re. a letter from Mons Franzland, asking for some compensation for road diversion on the S.E. 1/4 of Sec. 24, T. 15-36-24. It was moved by McDonald, that as we have no blue prints for the diversion, that the matter be investigated by Councilor Pennock of that Division. Carried.

The following correspondence was dealt with:

A letter from the accounting department of the Can. Pac. Railways with cheque for \$37.51 as refund on advance made by this District for crossing installed at mile post 101.

A letter from Dept. of Surveys re. crossing on Sec. 23-35-24. It was decided to leave it to the matter of filing a public crossing at this point in abeyance for the present.

Two sanitary inspector reports covering the hamlets of Elmore and Lonsdale, both being reported in good condition.

Circular from the Dept. of Public Works re. registration of road plans on unpatented land.

A report from Dr. R. J. Dean re. an outbreak of scarlet fever at Elmore. From Finance Board re. amount deducted from taxes with credit slip for the amount of \$955.00.

Circular from the Deputy Minister of Municipal Affairs, setting forth the procedure under the Tax Recovery Act and the different amendments affecting the tax sales and caveats.

Circular from Hall Insurance Board re. special meeting to be held at Edmonton on November 1st to consider several proposed amendments to the Hall Insurance Act. As we are not sending delegates to the convention of municipalities this year, the Council decided not to appoint a delegate to this special meeting.

Several letters were received from ratepayers in connection with the motion passed at the previous meeting regarding the collection of arrears of taxes, all declaring their intention to pay.

Road labor sheets, amounting to approximately \$12,000.00 was presented and on motion of Ross were passed for payment. Carried.

Moved by Ross, that the following accounts be passed and paid. Carried.

Secretary-Treasurer, petty cash account, \$2.40; Richardson Road Machinery Co., \$256.29; Can. Ingot Iron Co., \$267.51; J. D. Adams Co., \$210; Geo. Evans, repairs, \$35.30; S. J. Smith, repairs, \$7.75; Bellale Press, \$2.10; Western Man. News, \$35.50; News Pub. Co., \$4.20; The Advocate, \$2.40; Alberta Gov. Telephone (October), \$2.10; Burroughs Adding Machine Co., \$2.00; The Stamp Man, \$2.10; J. McHardy, coal, \$2.50; Smith, \$2.10; Alberta Lumber Co., \$35.50; R. H. Dando, acct. Mrs. Newline, \$50.00; supplies \$7.10, \$67.10; Red Deer Memorial Hospital, \$124.30; Conn. Wilson, services on committee, \$2.00; Conn. Moffat, services on committee, \$6.00; Conn. Pennock, services on committee, \$6.00; Conn. Collins, services on committee, \$7.00; Robt. Farries, services on committee, \$6.00. Total, \$1394.75.

Moved by McDonald, that the next meeting be held in Delmore on Friday, November 30th, at 11 o'clock a.m. Carried.

Meeting then adjourned.
Robt. Farries, Sec'y-Treasurer.

Pay your subscription now and get 500 votes for each year paid.

WEDNESDAY, NOVEMBER 7, 1923.

ARMISTICE DAY

Next Sunday is Armistice Day. It is requested and expected that throughout the British Empire a two-minute silence and cessation of work will be observed.

Let us never forget those who went and fought and suffered. Many of them are suffering yet. But their innermost feelings, and those are the ones that matter, must be pleasant compared to the innermost feelings of the men who, through cowardice, or sloth, or selfishness, or any other reason known to themselves to have been insufficient, did not go.

THE LATE ANDREW BONAR LAW

Equally with Great Britain, Canada will grieve at the great loss to the Empire in the death of Andrew Bonar Law, premier of Great Britain for a short time until health forced his resignation.

Andrew Bonar Law was born in 1858 in New Brunswick. He made a fortune in early days in business and entered politics. When he became premier of Great Britain in November, 1922, his health was not good, and under the severe strain of office it speedily became worse, and in May of this year he was forced to resign. Except for a few closely associated with him, people did not realize how ill he was, and news of his death on October 30th came as a great shock.

Bonar Law was the first Canadian-born Premier of Great Britain. His great qualities were his absolute honesty and his devotion to duty, qualities that make fewer but truer friends. In his short career, he became remarkably liked and trusted by all foreign governments and countries. The press of all countries united in his praise at the time of his retirement, and in regret at the necessity of that step. They all now join in expressions of sorrow at his death.

THE DRUG PROBLEM

Now that we have settled this question of the best method of handling the liquor problem, let us turn our attention to the drug problem. We mean of course, narcotics. Ordinary drugs and the immense consumption of them may be a problem, but it is not an important one. Narcotic drugs, their increasing consumption in the world and in our own Dominion, the methods by which they reach us, the terrible effects of their use, all these are important, tragically and universally so.

Those who have seen a drug addict in advanced stages will not likely forget the sight. And it is common knowledge that an addict will stop at nothing to get the drug. Theft, assault or murder are nothing to such men.

We cannot compel any other country to stop the growth or manufacture of narcotic drugs. It is a matter of the greatest difficulty to stop the drugs coming into the country in large quantities and impossible to stop it entirely. Besides many of the narcotic drugs are the basis of the chief ingredients in several valuable and potent medicines.

The evil must in the long run be eradicated in the only way it is possible to eradicate such evils, by the education of the people, and most especially the younger people, of the deadly danger in the drugs. Every newspaper in the land will willingly do its part. A very great deal might be done in schools and universities.

THE TAX RECOVERY ACT

We print verbatim in this issue an editorial from the Edmonton Bulletin. We do not always agree with the Bulletin, but we so heartily agree on this occasion that we do not feel like alter-

ternational Live Stock Exposition in Chicago last winter. In offering of the MacDonald Trophy and a trip to Chicago for the winning team this year, and the fact that ten annual scholarships for post-graduate work in scientific agriculture to the value of \$500.00 per year each are now awarded by the MacDonald firm.

It is hoped that the other three teams from Western Canada will find a way to compete at the International Live Stock Exposition before returning home from Toronto. The experience gained in the preliminary contest, seasoned by intensive study at leading breeding establishments during the following two weeks, should put the Canadian boys in top notch form for the Supreme Test at Chicago the first week in December and make the Yankee teams they meet there fight hard to keep the battle from going across the line.

"Yes, sir," said the barber, "my poor brother Jim has been sent to an asylum. He got to brooding over the hard times, and it finally drove him crazy. He and I worked side by side, and we both brooded a great deal. No money in the business any more, you know. Prices too low. Unless a customer has a shampoo, it doesn't pay to shave and cut. I caught Jim trying to cut a chap's throat because he declined a shampoo, so I had to have the poor fellow locked up. Makes me sad. Sometimes I feel sorry I didn't let him slash. It would have been our revenge. Shampoo, sir?" Sydney (Australia) Sun.

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner,
Government Buildings, Edmonton.

Coal Production Climbs

The year 1923 will see a new record in Alberta coal production. It is expected the total production for the year will reach 7,000,000 tons, in comparison with last year's 6,000,000 tons. The production up to November 1 is 1,500,000 tons greater than the production of the same period last year. The record production previously was in 1920, when 6,000,000 tons were produced. The payroll this year will, it is expected, be over \$15,000,000.

Wants Land for Estonians

Representing large numbers of people in Estonia who would find farm homes in Western Canada, Sir John Pitka, a native of that country, who was decorated by the British government for services during the war, was a visitor to the government buildings the past week. He has been invited by the federal government to make a survey of the west with a view to finding locations for settlers from his native land.

Survey of Tar Sands

A survey of the tar sand deposits north of Edmonton, at McMurtry, has been completed by officials of the federal department of mines.

Minimum Wage Board Meets

The Alberta minimum wage board is holding sessions in Edmonton the coming week with a view to the regulations outlined by the board recently.

Immigration Conference

Hon. Geo. Hoadley will represent the Alberta government at a conference on immigration matters to be held at Ottawa during November. Mr. Hoadley will also discuss with those at the conference the matter of provincial representation at the forthcoming British Empire Exposition in London.

Director of Technical Education

W. G. Carpenter, for some years superintendent of schools in Edmonton, has been appointed by the provincial government to be director of technical education in the province, and principal of the new technical institute at Calgary.

Dairy Convention

The annual convention of the Alberta Dairywomen's Association will be held at Edmonton, January 23, 24 and 25.

Stocker and Feeder Show

A stocker and feeder show is being held in Lethbridge during the coming week, along similar lines to that held some time ago in Calgary.

War on Crows

Plans for a definite campaign to exterminate crows are to be laid before the game associations shortly by Hon. Geo. Hoadley, minister of agriculture.

Fox Farms Growing in Number

There were 24 fox farms in Alberta in 1922, in comparison to only half that number the previous year, according to a report issued by the bureau of statistics at Ottawa.

Fall Stock Show

The fall stock show and sale under the auspices of the livestock associations and the Alberta department of agriculture, is being held the coming week at the exhibition grounds, Calgary.

The Mississippi Banker asked

a man who was trying to borrow money: "How much have you in the way of liquid assets?" To which the customer cautiously replied: "About a case and a half."

RED DEER IS BEAUTIFUL CITY

The Calgary Alberta, in its special edition, Saturday last, speaking of Red Deer, says:

"Red Deer situated on the Red Deer river, about 90 miles north of Calgary, is in a most attractive location. It is a rolling country, well treed, principally with spruce and poplar, and the smaller bush found in similar districts. The town has a population of about 3,000, and is often called Midway city, as it is half way between Calgary and Edmonton."

There is an abundance of small streams in the immediate vicinity of the town; many of these are very pretty, for the banks are high and trees grow to the water's edge. There are real hills surrounding the town, and it is not only the children who love the hills, but grown-ups as well. There is a certain romance to the hills, for one wonders what lies beyond, winding streams and crooked paths are just asuring, and Red Deer also has these.

A beautiful sight—only a short walk from town—was a field of wheat in stocks against a background of amber spruce. To the right and left were fields of golden grain, and beyond the distant hills, wrapped in pink and purple mists, reflections of the sun's glory almost spent.

The park is a large and attractive spot, and not too far from the city. Large trees, for this part of the world, are found here.

The golf links are also in a good location and there is a large membership. Sylvan Lake and Pine Lake are far enough away to make a pleasant outing, and these are truly delightful spots for picnics and recreation.

WINS VALUABLE SCHOLARSHIP

British Research Prize Is Won By Alberta Student

Julius Ferdinand Lehmann, B.S., M. Sc., University of Alberta, son of Prof. Lehmann of that institution, has received word from England of the awarding to him of a valuable scholarship for scientific research work.

The scholarships were founded out of proceeds of the 1921 London exhibition and several are awarded each year throughout the empire, including three awards to Canadian students. They are given for scientific research work in any branch of science, and are based on the decision of a committee sitting in London, England.

Mr. Lehmann's work was on "High Frequency Sound Vibration," and he states that this research was conducted under the direction of Dr. R. W. Boyle, of the University of Alberta.

The palm for raising the largest pumpkin goes to a farmer, Orlan, Wis., who has raised a pumpkin which weighs 117 pounds and measures almost three feet in height, and is over seven feet in circumference. The vegetable would make 100 pies.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of Edward Blonke, Late of Bashaw, in the Province of Alberta, Farmer, Deceased.

NOTICE is hereby given that all parties having claims against the estate of the above named EDWARD BLONKE, who died on or about the 18th day of February, 1923, are required to file with the firm of CASSELLMAN & DUNNE, 644 TEGLER BUILDING, EDMONTON, ALBERTA, Solicitors for the Administratrix, for the said Estate, by the 20th day of December, A.D., 1923, a full statement duly verified of their claims and of any securities held by them, and that after that date the Administratrix will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, and which have been brought to her knowledge.

DATED this 26th day of October, A.D. 1923.
CASSELLMAN & DUNNE,
Solicitors for the Administratrix,
644, Tegler Building,
Edmonton, Alberta.

RED DEER

One day while a farmer and his men were digging potatoes, a tramp came along and stopped to watch the workers. The boss, being short of help, asked the vagrant if he wanted a job.

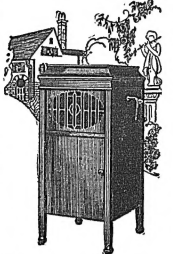

The man of leisure replied, "Sure! What do I have to do?"

"Dig potatoes."

The tramp started to walk away, and with a look of disgust, replied, "Let the man who planted them dig them. He knows where he put them."

Thanksgiving

The Day When Home Holds Sway and Mother Cooks Her Best Dinner

GET READY FOR IT NOW!

There are many preliminaries before the turkey is cooked. The home must first be put in order. A gloomy spot here and there should be brightened by new draperies or a small rug or two. There are cooking utensils to buy, dishes to be replenished, and certainly new table linens will be needed.

Here, you will find these things in a variety that is so pleasing in assortment and varied in price range that you are sure to find just what you want at the price you intended to pay. Fact of the matter is: we do not believe it possible for any store to plan any better than we have planned for every Thanksgiving need.

Good Table Linens for Thanksgiving

If there was ever a time when good, snowy white table linens and napkins look their best and add so much to the occasion, it is when dinner is being served Thanksgiving. Equal to its importance is the quality of linen, for these you use over and over again. Therefore, good linens are the cheapest in the end.

ALL LINEN TABLE COVERS—

70x70 at \$5.85, with Napkins 22x22 to match at \$6.85, 70x70 at \$6.85 with Napkins to match at \$7.85 per dozen.

Giant Canadian Pacific Pier Under Way at Vancouver

THE growth of Vancouver and the ever-increasing transpacific trade of this seaport has necessitated the construction of a new pier, one of the largest on the continent, for the accommodation of the Canadian Pacific Express liners. According to an announcement made by E. W. Beatty, K.C., President of the Company, at Vancouver recently, the pier, which is to be known as Pier B-C, will be of modern concrete design, capable of berthing the largest vessels trading to and from this port. It will be 1,100 feet long and will extend from the shore between Pier A, Burrard St., and Pier D, Granville St., on Burrard Inlet. An outlay of several million dollars upon this work and the associated buildings will be involved.

CHARRED BODY OF GIRL FOUND IN STRAW STACK

Police Are Scouring the South Country for Suspected Murderer

Calgary, November 4.—With her limbs horribly mangled and partially burned, the body of Miss Winnie Tolstrup, aged 17, daughter of F. C. Tolstrup, well known farmer of the Raymond district, was taken from a smouldering straw stack on the farm near Arthur Dahl, two miles from the Tolstrup farm, by a search party, at 11.30 o'clock, Saturday night. Two hours later members of the Royal Canadian Mounted Police, Alberta provincial police and Lethbridge city police were scouring the south country for Joe Black Horse, alias Two Stab, suspected of the horrible murder. At midnight last night the Indian had escaped arrest, but encumbered as he is with his squaw and family, it is believed he will be under arrest within the next twenty-four hours. The whole south country is greatly stirred over the murder, the murdered girl being one of the most popular in the district. Every farmer is carrying a gun and a circle of armed men are closing in on the murderer. The Blood Indian reservation is under observation. The authorities believe the murderer is trying to hide in the reserve. Indian trackers are aiding the police in the hunt.

ONE 50c BOX BROUGHT HEALTH

Years of Constipation Ended By "Fruit-a-tives"

The Wonderful Fruit Medicine
Anyone who suffers with miserable health; who is tormented with Headaches; who is unable to get any real pleasure out of life; who will be interested in this letter of Mrs. Martha de Wolfe of East Ship Harbor, N.S.
Mrs. de Wolfe says, "For years I was a dreadful sufferer from Constipation and Headaches and I was miserable in every way. Nothing in the way of medicine seemed to help me. Then I tried 'Fruit-a-tives' and the effect was splendid; and after taking only one box, I was completely relieved and now feel like a new person."
Box 1 box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

EXAMINER'S REVIEW OF PROVINCIAL MARKETS

Calgary, November 1.

Cattle—Beef—Calgary beef got into a slump like all the other markets and prices are now lower and the tone weak; choice heavy steers, \$4 to \$4.25; choice light \$4.50 to \$4.65; good, \$3.50 to \$4; medium, \$3 to \$3.50; common, \$2 to \$2.50; Heifers, choice, \$3.25 to \$3.50; good, \$2.75 to \$3.15. Choice cows, \$2.75 to \$3; good, \$2.50 to \$2.75; medium, \$2 to \$2.50; common, \$1.50 to \$2; canners down to 60c. Calves, which were choice, are now weak and the tone weak; heavy, \$2 to \$2.50. Plain unchanged, with tops at \$2; others, \$1.25 to \$1.75. Feeders, Stockers—Better values to buyers as holders are sacrificing, with choice feeders hard to put over at \$4, others down to \$3; stock steers, \$2.75 to \$3.50. Stock heifers, \$2 to \$2.75. Stock cows, 1.50 to \$2.50.

WILL NOT LOWER RATE ON GRAIN

New York, November 1.—Presidents and other executives of every grain or coal hauling railroad in the United States yesterday drafted what was unofficially reported to have been an unfavorable reply to President Coolidge's recent proposal for revision of rail freight rates on shipments of those two commodities which were drafted for export. A committee of the presidents was named and drafted reply to the president at Washington by Thursday or earlier. The contents of the draft were withheld to await the wishes of President Coolidge in regard to publication. The executives who helped draw it up said it was based on a conviction that lowering rates for grain for export would not create an increase in demand for wheat in Europe and therefore would not help lift the United States farmer out of the slough of over-production.

"A Wonderful Woman"

A remarkable story of a wonderful woman whose life story provides chapters after chapters of astounding heroism, extraordinary self-sacrifice and almost miraculous achievements. In, we are told, to be given free to each subscriber of the Family Herald and Weekly Star of Montreal. The life story of "The Wonderful Woman" also has been obtained cost free by sending a post card to the Family Herald and Weekly Star.

THE DANGEROUS DRUG ADDICT

By J. C. Shearer.
Nine thousand five hundred Canadians—many of them under twenty years of age—are on the opium habit. The illicit traffic in opium, morphine, heroin, cocaine, etc., is estimated at over \$100,000,000 a year. It is for this reason that a great many British scientists think the world is now in a state of peril. Once formed part of the earth, and was separated from it in the region which is now the Pacific Ocean.

HOW CAN THE FARMER DETERMINE THE BEST VARIETY TO GROW

(Experimental Farms Note)
The Experimental Farms throughout Canada may be relied upon to give valuable advice with regard to the most promising variety of grain to grow in the district or province in which a given farm is located. The districts in Canada, however, are so immense that only general information regarding the suitability of a variety for a given district can be given by an experimental farm. This is especially true when a farmer has peculiar conditions on his farm. It then becomes imperative that he make a further test under his own conditions in order to determine the sort which suits those conditions most satisfactorily.

It often happens that some physical peculiarity of the district presents a problem that does not arise in a place 4 or 5 miles away. Rust may be bad in a small area; new land may be coming under cultivation; it may be hard to get varieties with sufficient strength of straw on heavy, wet, peaty soil. All these are local problems that the individual can solve for himself in the following way: Write the nearest experimental farm and obtain information as to what varieties are likely to be most suitable; then purchase at least five pounds of each of these. A greater quantity however would be better. Five pounds is sufficient to sow one run of sower about 18 to 25 rods long. If it is intended to seed down grass and clover with the grain, it is best to block the outside spout on each end of the grain drill and drive so that the wheel follows the second drill mark instead of the first as is normally the case. In this way the seeder will cover all the ground with grass seed and leave a

14 inch path between the varieties which are seeded. During the growing period, observations should be made as to the behaviour of the varieties under test, so that by harvest time a fair idea may be gained as to which variety appears to suit local conditions best. If considered necessary in order to be sure of the yield, a few strips—from 5 to 10 are recommended—each one rod long, may be cut out of chosen rows in each plot. The heads obtained from these strips may then be threshed by hand and the grain weighed. The weight of grain so obtained from one plot may be compared with that from another as further evidence of the relative standing of the sorts tested. It does not take long to cut the heads from a strip one rod long nor does it take long to thresh, and for the little trouble involved, one is able to determine what variety is most likely to give greatest returns under the conditions considered.

The experimental farms are always willing to give advice and whenever possible to cooperate in solving local variety problems. Do not hesitate to write to the nearest Dominion Experimental Farm when you need advice on a variety for your district.

THE WOBBLING POLE

That the Pole wobbles is a puzzle as well as a scientific fact. One theory is that the wobbling is caused by vast accumulations of ice and snow. Another is that it is caused by the outer shell of the earth slipping upon the core of the planet. Suppose King Tulankamen had sent an expedition to find the North Pole. Let it be imagined that the goal was reached, and that a post was driven into the ground to mark its exact location. A month or so later, successful in his present project, would not find the Pole in the same spot as it was 3,500 years ago; but

it would not be far away. From a given centre, suppose a circle to be drawn from a radius of thirty feet. Inside of that circumference the Pole is always to be found. It is quite possible that the crust of the earth slips, because the shell which forms its envelope has considerable elasticity. The earth goes round on what is called its "axis of rotation," and it has another axis, an "axis of energy." At one time these two coincided, but now this is no longer the case, and their deviation produces the slipping, which is the cause of the wobbling of the poles and the corresponding changes in latitudes.

MYSTERY OF THE MOON

Although the American view is that the moon is composed of a number of small meteoric masses flying through space, British scientists still share Sir George Darwin's theory that the moon is a piece of the earth which flew off fifty or sixty million years ago owing to the terrific speed at which the earth was then rotating. Now the earth is slowing down. If the speed of rotation could be increased to what it was when the moon was supposed to have been flung off, every loose thing—chimney pots, for instance—would be sent flying. The moon's action of raising the tides, both in the oceans and in the earth's crust, has a retarding effect on the speed of the earth's rotation. The moon is getting farther and farther away from the earth. Therefore, by calculating backwards, we come to the time when the moon must have been touching the earth. It is for this reason that a great many British scientists think the world is now in a state of peril. Once formed part of the earth, and was separated from it in the region which is now the Pacific Ocean.

THE MCLARTY BAKERY CO.

As a soap bubble floats in the light of the sun it reflects to the eye an endless variety of gorgeous tints. Each of these tints corresponds to a certain thickness of the substance forming the bubble, scientists claim. Near the thickest point of the bubble, just before it bursts, can be seen a spot which reflects no color and appears black. The thickness of the bubble at this black point is said to be the two-million-five-hundred-thousandth part of an inch.

Parker Duofold

TAKE THIS TIP!

Do you realize that almost any day winter will be
here? Are you glad to hear it? Depends a lot
on whether you have the old coal bin full. A
good reserve stock of coal in the cellar makes
winter appear more attractive. The time to lay
in coal is when you can get quick delivery, and
that is right now.

REMEMBER, we are the people who give you
the year round SERVICE.

CANADIAN FIELD ARTILLERY

Orders for field ending November
10th, 1923:
Parades: The Battery will parade on
Sunday, November 11th, Armistice
Day, for the purpose of attending
Divine Service at St. Luke's
Church, Red Deer, at 10:45 a.m.

Dress: Officers: Khaki, service swords.
Warrant officers: Khaki, swords.
Other ranks: Khaki, Bedford cord
trousers. Band: Uniforms, with
tees will be worn to end of ankle.
Detail: Orderly Officer, Lieut. J. R.
Weston. Orderly Sergeant, Sergt. R.
C. Lobb.

"Full In": The Battery will fall in at
10:30, and be ready to move off at
10:35 sharp.

Markers: The Orderly Officer will de-
tail and place markers for the pa-
rade.

Issue of Uniform: Uniforms will be
issued any night on application to
the caretaker, and on signing for
same. Members are asked to draw
uniform in good time to allow of
any necessary changes to be made
to ensure good fit.

Drill: All members are required to
attend drill on Friday night, the
9th inst., for instruction in foot
drill, from 8:15. Dress: Drill order,
handkerchiefs.

The Officer Commanding hopes that
every member will attend this parade,
and will turn out smart and soldier-
like, and will endeavor to be on time.
Medals and decorations will be
worn.

R. C. LISTER, Major,
O.C. 78th Bty. C.F.A.

1st RED DEER WOLF CUBS

The 1st pack of Wolf Cubs have
moved their headquarters from the
old Scout hall on Ross St. to the club
room of the 2nd Troop of Scouts on
2nd Street N. This should prove very
convenient, and we heartily thank the
2nd Troop for allowing us to share
their club room.

At the weekly meeting of the Pack, held last Tues-
day, a short talk was given by the C.
M. on the care of Club property, the
rest of the evening being spent in
games. A new bean bag was intro-
duced which, once mastered, proved
popular, as did "Detectives," but we
would have liked to see a little more
care taken in observation when the
hands of the "Rogues" were inspec-
ted. At the close of the meeting the
boys received their Wolf head badge for
the jersey; this badge is worn on the
left side just below the service star.

Sister A. Ordian is the first Cub to re-
ceive the new Cub Tote. This Tote
has been issued by headquarters as
part of the school uniform for winter
wear. The color is green with a yel-
low tassel and has the official Cub
emblem on the front. The Tote
can be worn for school and every day
use, and we hope to see all Cubs wear-
ing it before long.

AKELA.
